OFFICE OF THE REGISTRAR · ELIZABETH CITY, NC

TECHNOLOGY CHECK

You opened the file. That was the whole task.

Course materials at TBI arrive as files like this one. If you can open this page and read it, you can open your coursework. Nothing here is graded, and there is nothing else in this file.

THE WORD TO TYPE BACK

ANCHOR

1. Return to the page you came from. It is still open behind this one — on a computer, the tab to the left of this one; on a phone or tablet, press the back arrow.
2. Find the box labeled **“The word printed in the PDF.”**
3. Type **ANCHOR** into it. Capital or small letters, either is fine.

If you cannot find your way back, close this file and start the check again. Nothing is lost, and nothing has been recorded yet.

This page exists only for the technology placement check. It is not part of any course, and it is not a test you can fail — the registrar’s office uses the result to decide how to send you your coursework, on paper or on screen. Questions: (252) 599-5272.
